No more harassing pains and indigestion. For a

We hear from Manila that a recent ordinance in that city prohibits the spitting on the floors of public buildings. This is considered by some as an indication that the Filipinos are fast becoming civilized.

Could not a similar arrangement be effected in Washington and one that would also protect the sidewalks from this filthy habit? The granolithic sidewalks in the business section of the city are actually covered with spit and tobacco juice by vulgar pedestrians and corner loafers. Who ever saw a lady spit on a public street? If men have to spit, should they not be made to do so in the street or gutter, and not in public halls and sidewalks. They are not allowed to spit in the street cars. Cannot the law be extended? not the law be extended?
